## Expansion of the tourist offer of the NGR area through an innovative recreation and leisure offer suitable for disabled people and fishing tourism.

**The objective of the action is to provide high quality services, innovative in the NGR area, within the framework of a recreational and fishing tourism offer accessible to disabled people, using local fishery products and the development of the business, through the construction and equipping of an individual recreation building (accommodation) in a homestead settlement (without architectural barriers), the construction of a livestock and storage building (for a small ZOO) and the purchase of a raft with fishing stands, as well as the creation of new seasonal jobs and their maintenance for a period of at least three years from the date of the last grant payment.**

Planned indicators of achievement of the objective(s) of the operation:

1. number of jobs created - 1.5 jobs
2. number of newly created or upgraded accommodation and catering facilities or tourist attractions adapted for use by people with disabilities - 1 item.
3. number of new or expanded business activities that provide water and fishing tourism services - 1
4. number of newly created or upgraded waterfront tourist attractions - 2 units.

Project co-financed by the Operational Program "Fisheries and the Sea" 2014-2020
